Attention:

Re: Additional Site Survey
Log 080

Gentlemen:

As requested, we submit herewith the fee proposal to provide a site survey for the land between the Scattergood Thorne tract and Turkey Run Road. This work will be added to the current survey sheets being developed. Our original survey proposal did not include this work because it is outside the Agency property line; but once the area was offered for use during construction, the survey was required.

Two drawings will be required to cover the geographic area. Two drawings will be needed for each of the following areas: (1) topographic survey, (2) utilities, and (3) demolition and new work.

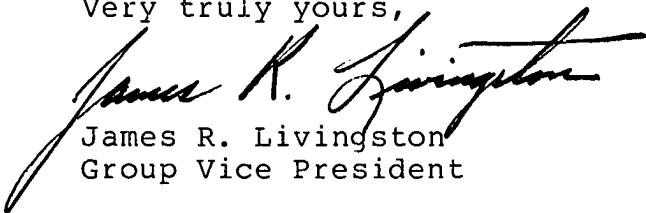

The actual survey work will be undertaken by Dewberry & Davis and all checking, printing, coordination will be SH&G's responsibility. No design work is included in this proposal as design is a part of the original contract.

Enclosed is the fee analysis form outlining all costs for this work and the proposal by Dewberry & Davis for the actual survey work.

The earliest possible receipt of approval to proceed with this work is requested to permit this information to be available early in the Preliminary phase.

If you have any questions about this proposal, please contact us at your convenience.

Very truly yours,

James R. Livingston
Group Vice President

D&D Proposal No. 6579
Additional Topographic Survey Services
CIA, Langley, Virginia

Mr. Wm. Everett Medling
Project Engineer
Smith, Hinchman & Grylls
455 W. Fort Street
Detroit, Michigan 48225

Dear Mr. Medling:

This is our proposal to provide additional topographic survey services in accordance with our present contractual agreement on CIA, Langley, Virginia.

The survey will be of the property to the West of the Scattergood Thorne property or that property lying between the Scattergood Thorne property and Turkey Run Road and will extend from the fence on the East side of Turkey Run Road to 100 feet on the West side of Turkey Run Road. Scaling this off, we obtained approximately 12 acres. The work will be done at a scale of 1"=30' and be in general accordance with the specifications of the contract to which this is an extension.

Our fee for this work would be a Lump Sum of \$2,900.00.

Your signature on the following page and the signed second copy returned to this office will consummate our agreement and serve as our authorization to proceed with the work as it is ordered.

Very truly yours,

Richard N. Davis
